

# Finnish central government borrowing

January 2025

# AA+ Aa1

# **Credit ratings**

The government has solicited credit ratings from two agencies: Fitch Ratings and Moody's Ratings.

For long-term debt, they are AA+ and Aa1 (negative, stable)

2

# Finnish economy

# Economic growth expected to gain speed next year

- Finland's GDP shrank by 0.3 per cent in 2024 though the economy grew in each quarter compared with 2023
- Consumption and investments will accelerate growth as inflation slows down, interest rates fall, and real household income increases
- Growth in Finnish exports is picking up
- Turnaround in labour market expected in 2025 - employment growth will be supported by the Government's measures to boost labour supply and by higher immigration
- Despite deficits, debt ratio showing signs of stabilising by 2027

	2024*	2025*	2026*	2027*
GDP change, %	-0.3	1.6	1.5	1.5
Inflation, %	1.6	1.1	1.4	1.8
Current account, % of GDP	-0.1	-0.4	-0.3	-0.4
Private investment change, %	-8.1	5.3	4.2	4.8
Exports change, %	0.4	3.4	3.1	2.4
Unemployment rate, %	8.3	8.4	7.9	7.4
Public deficit, % of GDP	-4.2	-3.5	-2.9	-2.5
Public debt, % of GDP*	82.5	85.0	86.1	86.3

\*The general government debt ratio increased by about 6 percentage points (approximately EUR 15 billion) from 66% to roughly 72% at the level of 2021 **due to Statistics Finland implementing a change in methodology**. The change was related to the interest subsidy loan system for rental and right-of-occupancy dwellings.

# Government's fiscal policy target is to stabilise the general government debt ratio by 2027

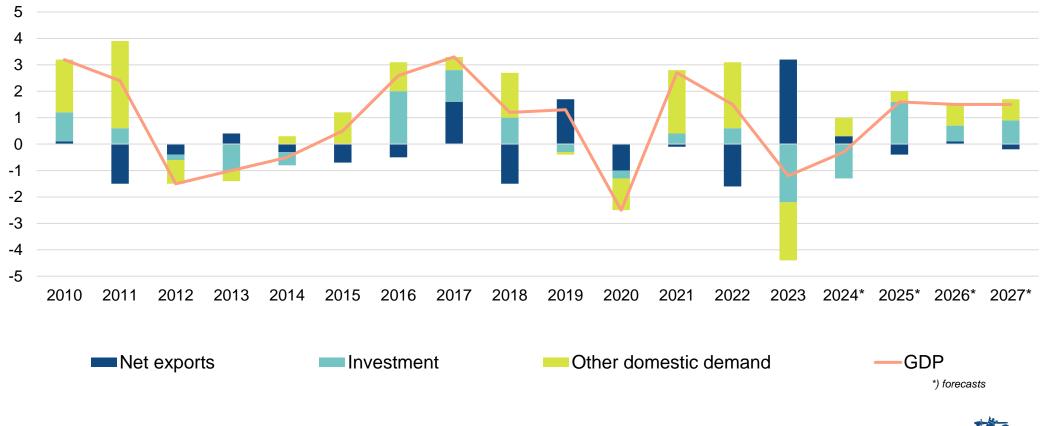

- Government committed to fiscal consolidation worth of EUR 9bn (EUR 6bn in government programme of 2023 + EUR 3bn of additional measures decided in spring 2024)
- Package consists of spending cuts (EUR 5.4bn), tax measures (EUR 1.6bn) and structural reforms (EUR 2bn) especially in labour market and social security
- This package is already in implementation, corrective measures possible in spring 2025 if needed
- Economic growth package includes increased public R&D spending to meet total target of 4% of GDP by 2030, tax credit for large-scale industrial investment and improving permit procedures for investments

## Sustainability in Finland: current themes

- Finland is by many metrics a global forerunner in sustainability
- Finland ranks #1 progress in towards the <u>Sustainable Development Goals</u>
- Finland's net zero emissions goal is 2035
  - New Climate Change Act in 2022
  - <u>Annual Climate Report</u> tracks progress towards the target
- National Biodiversity strategy underway
- More on Finland & ESG

# Finland's national target is net zero carbon emissions by 2035 Latest estimate: rate of emission redu

Emissions reduction targets set in the Climate Change Act

Latest estimate: rate of emission reductions in line with the 2030 target of climate act

- Finland's total emissions in 2023, 40.6 Mt Co2 eq (excl. LULUCF), is **43% less than in 1990**
- Over past five years, rate of GhG emission reductions has averaged around 4% a year
- Phasing out fossil fuels in electricity and heat production will be accomplished in the coming years
- Most challenging: the land use sector, where additional measures are needed to strengthen carbon sinks
- See also: Finland's climate performance assessed against <u>ASCOR framework</u>

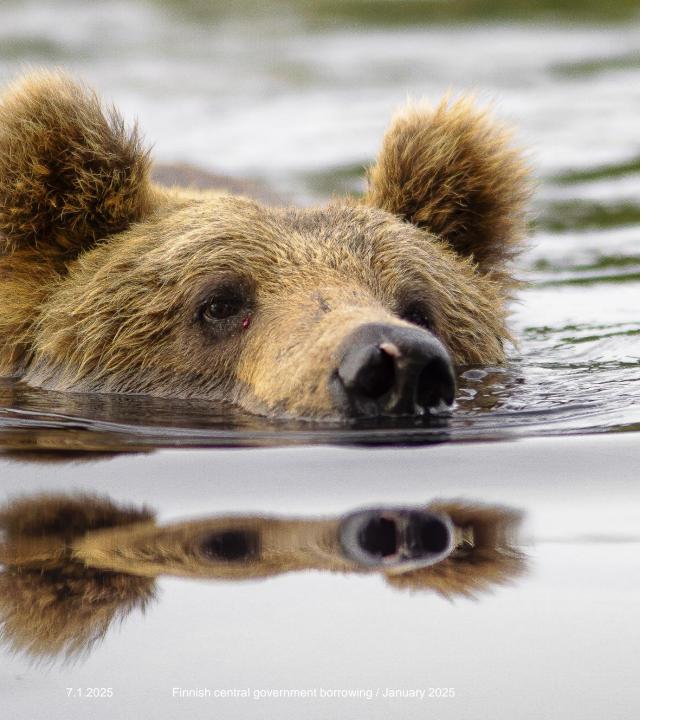

## The Sustainable Development Goals (SDG) Index by UN

<u>Rank</u>	<u>Country</u>	<u>Score</u>
