This bulletin reports the realisation of the state budget, and the state income, expenses, assets, liabilities, and cash flow.

The state has a legal accounting obligation for its budgetary funding per accounting unit. The accounting units include the Office of the President of the Republic of Finland, the ministries, and offices, organisations, and other institutions that function as operationally and financially expedient entities. The accounting units and state treasuries outside the budget shall deliver their accounting information to central accounting monthly. The information for the bulletin is produced from the central accounting database. The economic concepts that are used by Statistics Finland for their reports are not used in these reports.

Tables 1 to 5 in this bulletin describe the on-budget entities. Tables 1 and 2 present information from budget accounting, meaning that the profit and costs are presented using concepts and terms from the budget. The data in tables 3 to 5 are produced from business accounting and are presented using business accounting concepts.

The income between the offices and organisations is eliminated in the State income and expense account (table 3). The eliminated income is presented as deductions in the operating expenses on the line "Adjustment to internal expenses".

The receivables and debts between the accounting units only affect the state balance sheet (table 5) slightly and, therefore, are not eliminated.

Tables 6 to 9 describe the Central Government Finances, referring to the financial complex consisting of the on-budget entities and the treasury finances outside the budget. The transactions, receivables, and debts between the on-budget entities and treasury finances have been eliminated in the tables. The data in the tables are produced from the business accounting data and are presented using business accounting concepts.

The financial statement of the Central Government Finances is presented as a funds statement. More detailed interpretation instructions for the funds statement can be found on the [State Treasury website](#) along with time series related to the data in the funds statement and the publication schedule for the Central Government Finances monthly bulletin.

^{*)}Borrowings are regarded as revenue, and credits as expenditures, in the budget and the budget accounting that monitors its implementation. Transferable allocations that are not used during the financial year and that are useable during the following financial year are regarded as costs in the financial statements according to the budget accounting. Revenue and expenditures are not allocated as income and expenses.

^{*)}The concepts of revenue and expenditures in business accounting correspond to those in general accounting. Borrowings and credits are therefore regarded as financial transactions, and revenue and expenditures are allocated as income and expenses for the purposes of creating the income and expense account and balance sheet. Transferable allocations that are not used during the financial year and that are useable during the following financial year do not affect the income and expense account or balance sheet.
